**How We Will Calculate Your Balance:** For Purchase balances, we will use a method called "average daily balance (including new purchases)." See the section titled *Balances Subject to Interest Rate* in your Credit Card Agreement for more details.

For Balance Transfer and Cash Advance balances, we will use an Average Balance Method (including new Balance Transfers and Cash Advances): This balance is figured by adding the outstanding balance (including new Balance Transfers and Cash Advances and deducting payments and credits) for each day in the current billing cycle, together with the balances for each day in the previous billing cycle for balance transfers and cash advances with transaction dates in the previous cycle and posting dates in the current cycle, and then dividing by the number of days in the current billing cycle.

**Military Lending Act Disclosure:** The following disclosure applies to persons covered by the Military Lending Act - other governmental programs and laws may also govern or apply to this transaction but are not described in the following disclosure. Please refer to the *Total Minimum Payment Due* section of the Credit Card Agreement to see how your monthly minimum payment is calculated.
