Quick Access Buttons

These buttons allow you to navigate quickly and easily to commonly used features within online banking.

Widget Stack

The widget stack gives easy access to additional features right from the homepage. These widgets can be expanded or collapsed, displayed or hidden, and even marked as favorites, so they expand by default.

Customization

You have control over how and what displays on your homepage. To make adjustments, select the  button.

From the slide-out, you can:

- Personalize the Greeting Name
- Select which widgets you want to display in the stack by toggling them off and on
- Favorite widgets that you want to be expanded by default
- Reorder the widgets within the stack to display in your preferred order
